DOI numbers
Author's Affiliation

Annual Review Report 2017 presents the following statistical data:

- ❑ **JOURNAL PAGE USAGE** (for both English [EN] and German [DE] platform language versions):
 - Product page – the main page of the journal, where the cover, description and supplementary materials are located.
 - Content pages – the archive, with issues and articles.

Journal page usage presents the numbers of visitors and page impressions:

- Page impression - the total number of times a specific website has been accessed. Page impression happens anytime a page is loaded through the browser.
 - Visitor - an individual user who has accessed the site; determined by the IP address of a computer or device that was used for browsing. If a visitor uses the same device each time to access a website, only one unique visit is counted.
- ❑ **EVENT USAGE** gives an overview about the clicks on buttons by users on journal pages: presents downloads of content, flyer, clicks on cite/export button as well as number of times users tried to register for alerts:
 - Clicks - the total number of times a specific button was clicked
 - Unique clicks - the total number of times a specific button was clicked by individual users (visitors).

JOURNAL PAGE USAGE	VISITORS	PAGE IMPRESSIO NS
Product page	962 (EN) 37 (DE)	1,265 (EN) 46 (DE)
Content page	1,964 (EN) 101 (DE)	3,044 (EN) 132 (DE)
EN – English language version		
DE – German language version		

EVENT USAGE	CLICKS	UNIQUE CLICKS
