

Since November 15 2024 RevolverMaps stopped functioning. They write: **"Many thanks to all users and supporters of the service!"**

We have been using it since 2016 with the following number of visitors of our site:

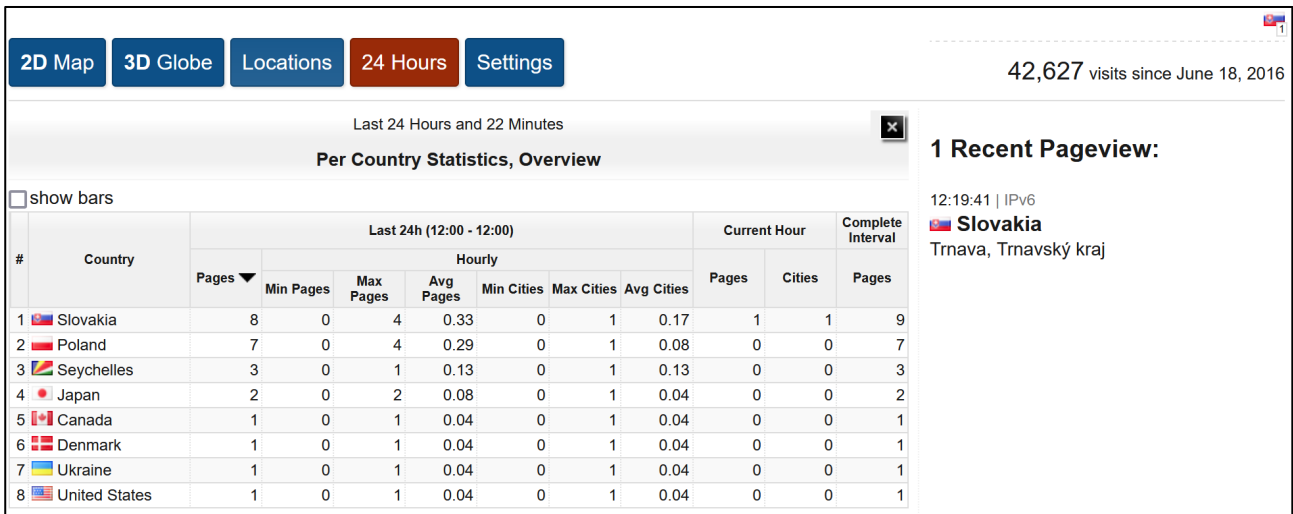

Figure 1. Our site visitors in March 2024. Source: *Lege artis* site; own processing

Since June 18 2016 according to the data from March we have had 42,627 from 140 countries. In November 2024 we had visitors from 143 countries. We don't know the number of visitors in November 2024 because we did not expect that the application would be closed. We can give only the data from December 2023.
